I want to introduce you to the mobile game Astronest, an indie game that I play a lot (for more than a year). The game is quite old (2006 I think), but if you like strategy games, this is the game for you! Each hero has special skills and abilities, you must fit your fleet depending on your enemies, formations, some items called Tron that improve your heroes etc... and there is also a small but important economic part. They also do a lot of events, and facebook events get some free stuff easily. The game can be disturbing in the beginning, because we can not control the fight, but this is the strategy. Check out the screenshots below, and try it! (And join the Terra faction, please! Too many Neos some servers haha) Seiten, die von der Seite mit Gefällt mir markiert wurdenAktueller Beitrag der Seitelits season to be cheerful commanders! Sign up every day and get rewards!
